LOOKING TO HEAT UP PROFITS? WE'VE GOT YOU COVERED.

Exciting promotional ideas, mouthwatering menu suggestions and other fun ways to help you capture the summer magic — and profits.

YAPPY HOUR

What better way to ring in the dog days of summer than with a tasty tribute to everyone's best friend? Invite your dog-loving patrons to bring in their pets for some furry frivolity — a Yappy Hour — in which fur babies get some refreshing treats and humans get discounts on apps. It's a dog-friendly dining option that's also a surefire way to drive traffic, especially during slower business days.

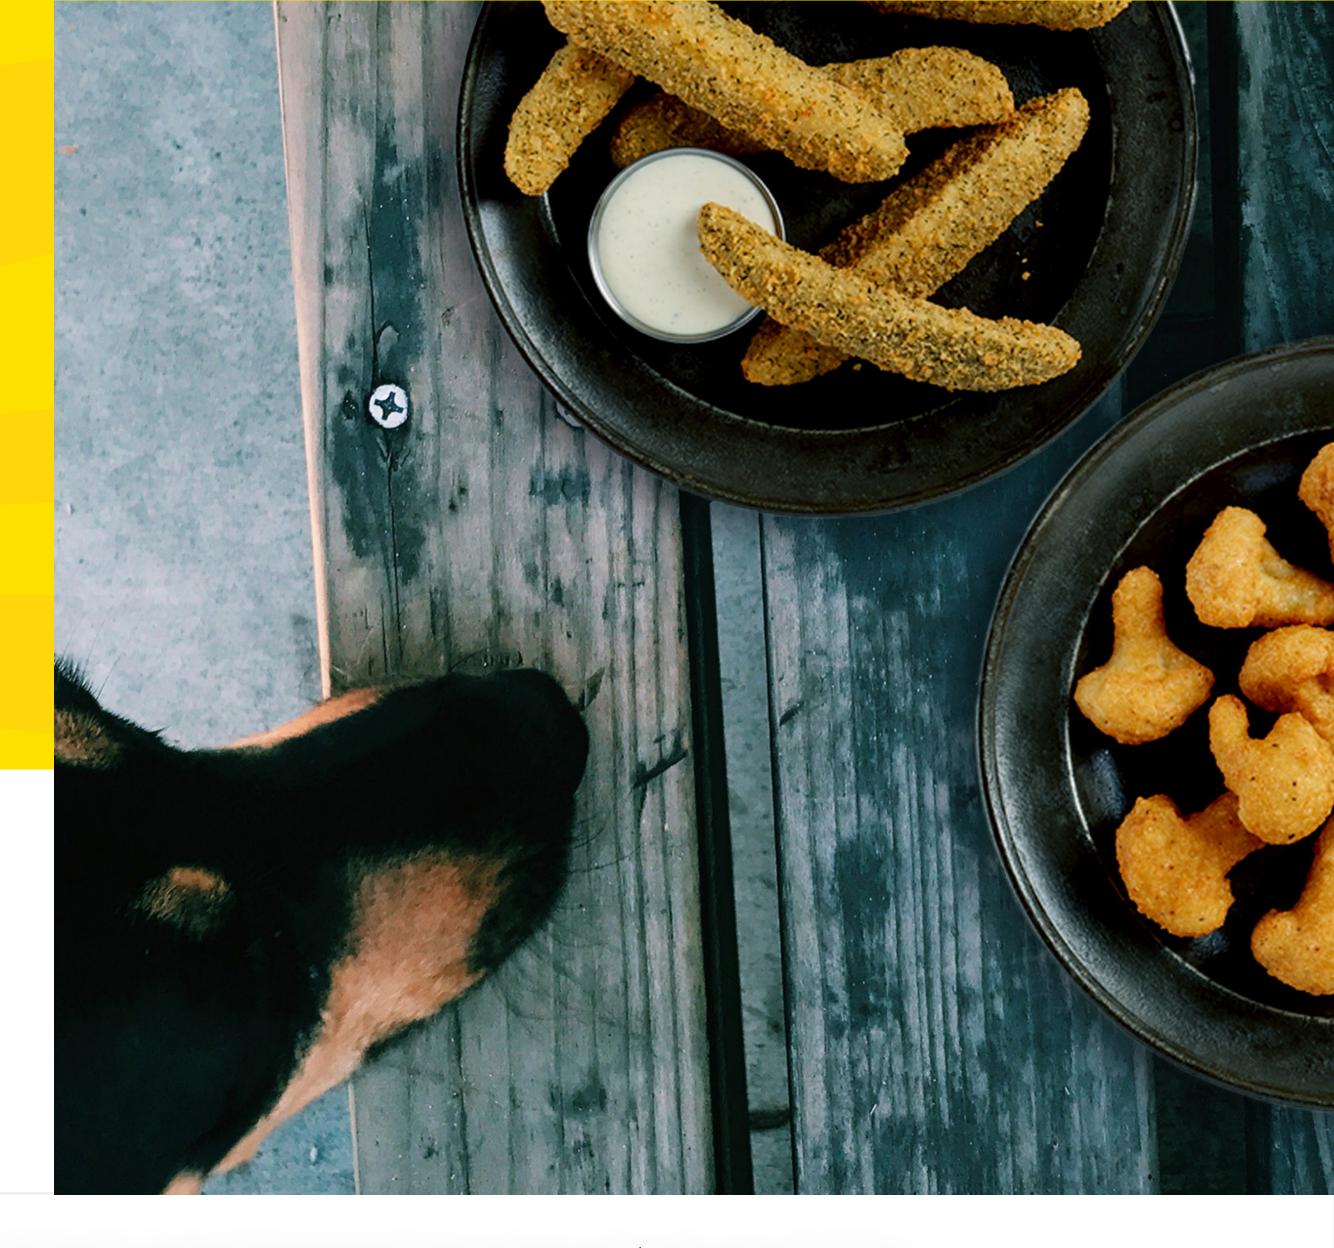

PROFIT POTENTIAL

Patios are not just enticing for dog lovers. They're great for your bottom line, too. If you have a patio, it's been proven that your revenue can increase by up to 30%.*

FAMILY PICNIC PACKS

Take your outdoor dining experience even further and drive off-premise traffic by encouraging people to grab their food to go. After all, summer is the season for much-needed family QT and vitamin D. And grab-and-go meals for the whole family are a convenient option when they want to jump in the car and hit the park, lake, trail or just their own backyard.

PROFIT POTENTIAL

Mozzarella cheese sticks are a great picnic pack addition. Fried cheese is the #1 most popular fried appetizer, with consumption having increased by 75% since 1981.*

POOL PARTY PUNCH-UPS

This summer, kick up the poolside vibes a notch by partnering with private and public swimming establishments to deliver an app-tastic food experience. It's a great way for communities to come together and socialize over tasty eats while encouraging off-premise traffic and building your brand.

PROFIT POTENTIAL

No pool day is complete without burgers. And burgers are more fun with an appetizer as a topper. Plus, 35% of consumers are willing to pay more for premium toppings.*

FAN FOOD FACE-OFFS

Summer sports are back in action, and when it comes to rivalries—winning is the only thing that matters. In the spirit of friendly competition, create a contest with special game-day menus that cater to sports rivalries. The more apps a team's fans order, the more points they tally. The victors could even earn a gift card or discount for their effort. It's a great way to capitalize on sports fans' competitive spirit while driving traffic and increasing check averages.

PROFIT POTENTIAL

Have you thought about adding apps as a side or topper to your menu for the next big game? You can expect 2x more profit when an appetizer product is used across the menu.*

THE BIG BRUNCH COCKTAIL

Summer is the perfect season for getting the brunch bunch together for a weekend hang. And no brunch is complete without a Bloody Mary with all the fixings. But olives and celery sticks are mere child's play. How about a bloody with a fried pickle and a gooey mozzarella stick? That's right: it's time to put ALL THE APPS on your glass. It's a great way to increase check averages while adding an Insta-worthy item to your menu.

PROFIT POTENTIAL

Consider making your loaded Bloody Mary a limited-time offer. You'll generally see up to a 25% increase in revenue and traffic when you offer an LTO.*
